Recording of Transactions-II

In chapter 3, you learnt that all the business transactions are first recorded in the journal and then they are posted in the ledger accounts. A small business may be able to record all its transactions in one book only, i.e., the journal. But as the business expands and the number of transactions becomes large, it may become cumbersome to journalise each transaction. For quick, efficient and accurate recording of business transactions, Journal is sub-divided into special journals. Many of the business transactions are repetitive in nature. They can be easily recorded in special journals, each meant for recording all the transactions of a similar nature. For example, all cash transactions may be recorded in one book, all credit sales transactions in another book and all credit purchases transactions in yet another book and so on. These special journals are also called daybooks or subsidiary books. Transactions that cannot be recorded in any special journal are recorded in journal called the *Journal Proper*. Special journals prove economical and make division of labour possible in accounting work. In this chapter we will discuss the following special purpose books:

LEARNING OBJECTIVES

After studying this chapter, you will be able to :

- state the need for special purpose books;
 - record the transactions in cash book and post them in the ledger;
 - prepare the petty cash book;
 - record the transactions in the special purpose books;
 - post the entries in the special purpose book and to the ledger;
 - balance the ledger accounts.
- Cash Book
 - Purchases Book
 - Purchases Return (Return Outwards) Book
 - Sales Book
 - Sales Return (Return Inwards) Book
 - Journal Proper

4.1 Cash Book

Cash book is a book in which all transactions relating to cash receipts and cash payments are recorded. It starts with the cash or bank balances at the beginning of the period. Generally, it is made on monthly basis. This is a very popular book and is maintained by all organisations, big or small, profit or not-for-profit. It serves the purpose of both journal as well as the ledger (cash) account. It is also called the *book of original entry*. When a cashbook is maintained, transactions of cash are not recorded in the journal, and no separate account for cash or bank is required in the ledger.

4.1.1 Single Column Cash Book

The single column cash book records all cash transactions of the business in a chronological order, i.e., it is a complete record of cash receipts and cash payments. When all receipts and payments are made in cash by a business organisation only, the cash book contains only one amount column on each (debit and credit) side. The format of single column cash book is shown in figure 4.1.

Fig. 4.1 : Format of single column cash book

Recording of entries in the single column cash book and its balancing is illustrated by an example. Consider the following transactions of M/s Roopa Traders observe how they are recorded in a single column cash book.

Posting of the Single Column Cash Book

As evident from figure 4.1, the left side of the cash book shows the *receipts* of the cash whereas the right side of the cash book shows all the *payments* made in cash. The accounts appearing on the debit side for the cash book are credited in the respective ledger accounts because cash has been received in respect of them. Thus, in our example, an entry 'cash received from Gurmeet' appears on the debit side of the cash book conveys that the cash has been received from Gurmeet. Therefore, in the ledger, Gurmeet's account will be credited by writing 'Cash' in the particulars column on the credit side. Similarly, all the account names appearing on the credit side of the cash book are debited as cash/cheque has been paid in respect of them. Now, notice, how the transactions in our example are posted to the related ledger accounts:

4.1.2 Double Column Cash Book

In this type of cash book, there are two columns of amount on each side of the cash book. In fact, now-a-days bank transactions are very large in number. In many organisations, as far as possible, all receipts and payments are affected through bank.

A businessman generally opens a current account with a bank. Bank, do not allow any interest on the balance in current account but charge a small amount, called *incidental charges*, for the services rendered.

For depositing cash/cheques in the bank account, a form has to be filled, which is called a *pay-in-slip*. (refer figure 4.2) It contains a counterfoil also which is returned to the customer (depositor) with the signature of the cashier, as *receipt*.

The bank issues blank cheque forms, to the account holder for withdrawing money. (refer figure 4.3) The depositor writes the name of the party to whom payment is to be made after the words *Pay* printed on the cheque. Cheque

Fig. 4.2 : A pay-in-slip

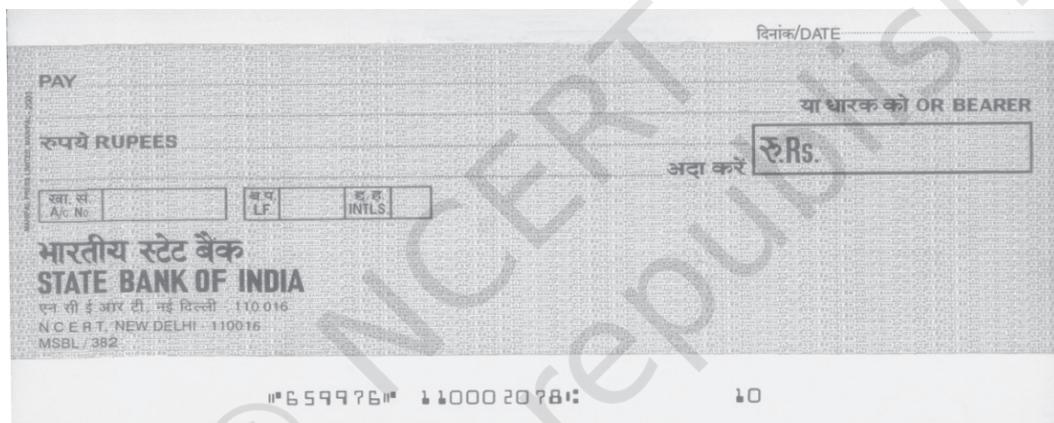

Fig. 4.3 : A cheque

forms have the printed word *bearer*, which means payment is to be made to the person whose name has been written after the words "pay" or the *bearer* of the cheques. When the word 'bearer' is struck off by drawing a line, the cheque becomes an *order cheque*. It means payment is to be made to the person whose name is written on the cheque or to his order after proper identification.

Cheques are generally crossed in practice. The payment of a crossed cheque cannot be made direct to the party on the counter. It is to be paid only through a bank. When two parallel lines are drawn across the cheque, it is said to be crossed. The various types of crossing providing different degrees of safety to the payment are shown in figure 4.4.

In case of an *A/c payee only* crossing, the amount of the cheque can be deposited only in the account of the person whose name appears on the cheque. When the name of the bank is written between two parallel lines, it becomes a *special crossing* and the payment can be made only to the bank whose name has been written between the two lines.

Though this is rarely done, a cheque can be transferred by the payee (the person in whose favour the cheque has been drawn) to another person, if it is not crossed *A/c payee only*. A bearer cheque can be passed on by mere delivery. An *order cheque* can be transferred by endorsement and delivery. *Endorsement* means the writing of instructions to pay the cheque to a particular person and then signing it on the back of the cheque.

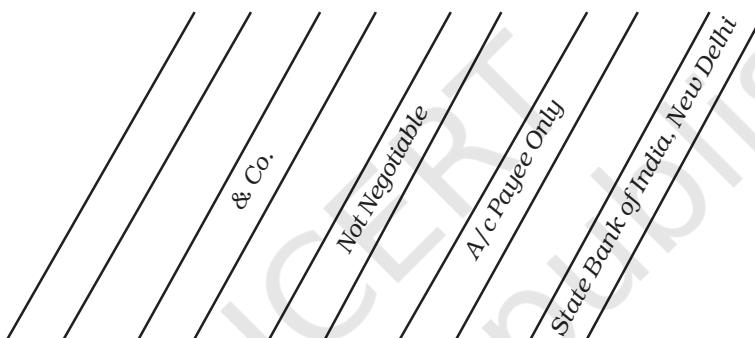

Fig. 4.4 : Types of crossing

When the number of bank transactions is large; it is convenient to have a separate amount column for bank transactions in the cash book itself instead of recording them in the journal. This helps in getting information about the position of the bank account from time to time. Just like cash transactions, all payments into the bank are recorded on the left side and all withdrawals/payments through the bank are recorded on the right side. When cash is deposited in the bank or cash is withdrawn from the bank, both the entries are recorded in the cash book. This is so because both aspects of the transaction appear in the cash book itself. When cash is paid into the bank, the amount deposited is written on the left side in the bank column and at the same time the same amount is entered on the right side in the cash column. The reverse entries are recorded when cash is withdrawn from the bank for use in the office. Against such entries the word **C**, which stands for *contra* is written in the L.F. column indicating that these entries are not to be posted to the ledger account.

The bank column is balanced in the same way as the cash column. However, in the bank column, there can be credit balance also because of overdraft taken from the bank. *Overdraft* is a situation when cash withdrawn from the bank exceeds the amount of deposit. Entries in respect of cheques received should be made in the bank column of the cash book. When a cheque is received, it may be deposited into the bank on the same day or it may be deposited on another day. In case, it is deposited on the same day the amount is recorded in the bank column of the cash book on the receipts side. If the cheque is deposited on another day, in that case, on the date of receipt it is treated as cash received and hence recorded in the cash column on the receipts side. On the day of deposit to the bank, it is shown in the Bank Column on receipt (Dr.) side and in the Cash Column on the payment (Cr.) side. This is a *contra entry*.

If a cheque received from a customer is dishonoured, the bank will return the dishonoured cheque and debit the firm's account. On receipt of such cheque or intimation from the bank, the firm will make an entry on the credit side of the cash book by entering the amount of the dishonoured cheque in the bank column and the name of the customer in the particulars column. This entry will restore the position prevailing before the receipt of the cheque from the customer and its deposit in the bank. Dishonour of a cheque means return of the cheque unpaid, generally due to insufficient funds in the customer's account with the bank.

If the bank debits the firm on account of interest, commission or other charges for bank services, the entry will be made on the credit side in bank column. If the bank credits the firm's account, the entry will be made on the debit side of the cash book in the appropriate column. The format of double column cash book is shown in figure 4.5.

Fig. 4.5 : Format of a double column cashbook

We will now learn how the transactions are recorded in the double column cash book.

Consider the following example:

The following transactions related to M/s Tools India :

| Date | Details | Amount ₹ |
|----------|---|-------------|
| 2017 | | |
| Sept. 01 | Bank balance | 42,000 |
| Sept. 01 | Cash balance | 15,000 |
| Sept. 04 | Purchased goods by cheque | 12,000 |
| Sept. 08 | Sales of goods for cash | 6,000 |
| Sept. 13 | Purchased machinery by cheque | 5,500 |
| Sept. 16 | Sold goods and received cheque (deposited same day) | 4,500 |
| Sept. 17 | Purchase goods from Mriaula in cash | 17,400 |
| Sept. 20 | Purchase stationery by cheque | 1,100 |
| Sept. 24 | Cheque given to Rohit | 1,500 |
| Sept. 27 | Cash withdrawn from bank | 10,000 |
| Sept. 30 | Rent paid by cheque | 2,500 |
| Sept. 30 | Paid salary | 3,500 |

The double column cash book based upon above business transactions will be prepared as follows :

When the bank column is maintained in the cash book, the bank account also is not opened in the ledger. The bank column serves the purpose of the bank account. Entries marked **C** (being contra entries as explained earlier) are ignored while posting from the cash book to the ledger. These entries represent debit or credit of cash account against the bank account or vice-versa. We will now see how the transactions recorded in double column cash book are posted to the individual accounts.

4.1.3 Petty Cash Book

In every organisation, a large number of small payments such as conveyance, cartage, postage, telegrams and other expenses (collectively recorded under miscellaneous expenses) are made. These are generally repetitive in nature. If all these payments are handled by the cashier and are recorded in the main cash book, the procedure is found to be very cumbersome. The cashier may be overburdened and the cash book may become very bulky. To avoid this, large organisations normally appoint one more cashier (petty cashier) and maintain a separate cash book to record these transactions. Such a cash book maintained by petty cashier is called petty cash book.

The petty cashier works on the *Imprest system*. Under this system, a definite sum, say ₹ 2,000 is given to the petty cashier at the beginning of a certain period. This amount is called imprest amount. The petty cashier goes on making all small payments out of this imprest amount and when he has spent the substantial portion of the imprest amount say ₹1,780, he gets reimbursement of the amount spent from the head cashier. Thus, he again has the full imprest amount in the beginning of the next period. The reimbursement may be made on a weekly, fortnightly or monthly basis, depending on the frequency of small payments. (In certain cases, the petty cash system is operated through the

main cash book itself. In such instances, the petty cash book is not maintained independently.)

The petty cash book generally has a number of columns for the amount on the payment side (credit) besides the first other amount column. Each of the amount columns is allotted for items of specific payments, which are most common. The last amount column is designated as 'Miscellaneous' followed by a 'Remarks' column. In the miscellaneous column those payments are recorded for which a separate column does not exist. In the 'Remarks' the nature of payment is recorded. At the end of the period, all amount columns are totaled. The total amount column 1 shows the total amount spent and to be reimbursed. On the receipt (debit) side, there is only one amount column. Columns for the date, voucher number and particulars are common for both receipts and payments.

Box 1

Advantages of Maintaining Petty Cash Book

1. *Saving of Time and efforts of chief cashier:* The chief cashier is not required to deal with petty disbursements. He can concentrate on cash transactions involving large amount of cash. It saves time and labour and helps chief cashier to discharge his duties more effectively
2. *Effective control over cash disbursements:* Cash control becomes easy because of division of work. The head cashier can control big payments directly and petty payments by keeping a proper check on the petty cashier. This way the chances of making frauds and embezzlements become very difficult.
3. *Convenient recording:* Recording of petty disbursements in the main cash book makes it bulky and unmanageable. Further, the materiality principle requires that insignificant details need not be given in the main cashbook. This way the cash book reveals only material and useful information.

Recording of such small payments becomes easy as the totals of different types of expenses are posted to ledger. It also saves time and effort of posting individual items in the ledger. In nutshell it can be stated that preparation of petty cash book is a cost reduction control measure.

For example, Mr. Mohit, the petty cahier of M/s Samaira Traders received Rupees 2,000 on May 01, 2017 from the Head Cashier. For the month, details of petty expenses are listed here under:

Posting from the Petty Cash Book

The petty cash book is balanced periodically. The difference between the total receipts and total payments is the balance with the petty cashier. The balance is carried to the next period and the petty cashier is paid the amount actually spent. A petty cash account is opened in the ledger. It is debited with the amount given to petty cashier. Each expense account is individually debited with the periodic total as per the respective column by writing "petty cash account" and the petty cash account is credited with the total expenditure incurred during the period by writing sundries as per petty cash book. The petty cash account is balanced. It reflects the actual cash with the petty cashier.

The petty cash book for the month will be prepared as follows :

4.1.4 Balancing of Cash Book

On the left side, all cash transactions relating to cash receipts (debits) and on the right side all transactions relating to cash payments (credits) are entered date-wise. When a cash book is maintained, a separate cash book in the ledger is not opened. The cash book is balanced in the same way as an account in the ledger. But it may be noted that in the case of the cash book, there will always be debit balance because cash payments can never exceed cash receipts and cash in hand at the beginning of the period.

The source document for cash receipts is generally the duplicate copy of the receipt issued by the cashier. For payment, any document, invoice, bill, receipt, etc., on the basis of which payment has been made, will serve as a source document for recording transactions in the cash book. When payment has been made, all these documents, popularly known as vouchers, are given a serial number and filed in a separate file for future reference and verification.

4.2 Purchases (Journal) Book

All credit purchases of goods are recorded in the purchases journal whereas cash purchases are recorded in the cash book. Other purchases such as purchases of office equipment, furniture, building, are recorded in the journal proper if purchased on credit or in the cash book if purchased for cash. The source documents for recording entries in the book are invoices or bills received by the firm from the suppliers of the goods. Entries are made with the net amount of the invoice. Trade discount and other details of the invoice need not be recorded in this book. The format of the purchases journal is shown in figure 4.6.

4.3 Purchases Return (Journal) Book

In this book, purchases return of goods are recorded. Sometimes goods purchased are returned to the supplier for various reasons such as the goods are not of the required quality, or are defective, etc. For every return, a debit note (in duplicate) is prepared and the original one is sent to the supplier for making necessary entries in his book. The supplier may also prepare a note, which is called the credit note. The source document for recording entries in the purchases return journal is generally a debit note. A debit note will contain the name of the party (to whom the goods have been returned) details of the goods returned and the reason for returning the goods. Each debit note is serially numbered and dated. The format of the purchases return journal is shown in figure 4.7(a).

Box 2**Debit and Credit Notes**

A *Debit note* is a document evidencing a debit to be raised against a party for reasons other than sale on credit. On finding that goods supplied are not as per the terms of the order placed, the defective goods are returned to the supplier of the goods and a note is prepared to debit the supplier; or when an additional sum is recoverable from a customer such a note is prepared to debit the customer with the additional dues. In these two situations the note is called a debit note (refer figure 4.7(b)).

A *Credit note* is prepared, when a party is to be given a credit for reasons other than credit purchase. It is a common practice to make it in red ink. When goods are received back from a customer, a credit note should be sent to him. The suggested proforma of credit note is shown in figure 4.7(c).

Fig. 4.7(c) : Showing a specimen credit note

Refer to the purchases (journal) book of Kanika Traders you will notice that 20 mini size T.V.'s and 15 tape- recorders were bought from Neema Electronics for ₹ 1,82,000 However, on delivery 2 mini T.V.'s and tape recorders were found defective and were returned back vide debit note no. 03/2017. In this case, the purchases return books will be prepared as follows :

Purchases Return (Journal) Book

| Date | Debit Note No. | Name of the Supplier (Account to be debited) | L.F. | Amount ₹ |
|------|----------------|---|------|----------|
| | 03/2017 | Neema Electronics | | 13,200 |
| | | | | 13,200 |

4.4 Sales (Journal) Book

All credit sales of merchandise are recorded in the sales journal. Cash sales are recorded in the cash book. The format of the sales journal is similar to that of the purchases journal explained earlier. The source document for recording entries in the sales journal are sales invoice or bill issued by the firm to the customers. The date of sale, invoice number, name of the customer and amount of the invoice are recorded in the sales journal. Other details about the sales transaction including terms of payment are available in the invoice. In fact, two or more than two copies of a sales invoice are prepared for each sale. The book

keeper makes entries in the sales journal from one copy of the sales invoice. The format of the sales journal is shown in figure 4.8. In the sales journal, one additional column may be added to record sales tax recovered from the customer and to be paid to the government within the stipulated time. Periodically, at the end of each month the amount column is total led and posted to the credit of sales account in the ledger. Posting to the debit side of individual customer's accounts may be made daily.

| April 28 | 209 | Raman Traders | | 85,000 |
| April 30 | | | | 1,10,850 |

Posting from the sales journal are done to the debit of customer's accounts kept in the ledger. Like the purchases journal, individual customer's accounts are generally posted daily, with the amount involved. The sales journal is also totaled periodically (generally monthly), and this total is credited to sales account in the ledger. The sales (journal) book illustrated above will be posted in the related ledger account in the following manner:

4.5 Sales Return (Journal) Book

This journal is used to record return of goods by customers to them on credit. On receipt of goods from the customer, a credit note is prepared, like the debit note referred to earlier. The difference between the credit not and the debit note is that the former is prepared by the seller and the latter is prepared by the buyer. Like the debit note, the credit note is also prepared in duplicate and contains detail relating to the name of the customer, details of the merchandise received back and the amount. Each credit note is serially numbered and dated. The source document for recording entries in the sales return book is generally the credit note. The format of the sales return book is shown in figure 4.9

4.6 Journal Proper

A book maintained to record transactions, which do not find place in special journals, is known as Journal Proper or Journal Residual.

Following transactions are recorded in this journal:

1. *Opening Entry:* In order to open new set of books in the beginning of new accounting year and record therein opening balances of assets, liabilities and capital, the opening entry is made in the journal.
2. *Adjustment Entries:* In order to update ledger account on accrual basis, such entries are made at the end of the accounting period. Such as Rent outstanding, Prepaid insurance, Depreciation and Commission received in advance.

3. *Rectification entries:* To rectify errors in recording transactions in the books of original entry and their posting to ledger accounts this journal is used.
4. *Transfer entries:* Drawing account is transferred to capital account at the end of the accounting year. Expenses accounts and revenue accounts which are not balanced at the time of balancing are opened to record specific transactions. Accounts relating to operation of business such as Sales, Purchases, Opening Stock, Income, Gains and Expenses, etc., and drawing are closed at the end of the year and their Total/balances are transferred to Trading and Profit and Loss account by recording the journal entries. These are also called *closing entries*.
5. *Other entries:* In addition to the above mentioned entries in the points number 1 to 4, recording of the following transaction is done in the journal proper :
 - (i) At the time of a dishonour of a cheque the entry for cancellation for discount received or discount allowed earlier.
 - (ii) Purchase/sale of items on credit other than goods.
 - (iii) Goods withdrawn by the owner for personal use.
 - (iv) Goods distributed as samples for sales promotion.
 - (v) Endorsement and dishonour of bills of exchange.
 - (vi) Transaction in respect of consignment and joint venture, etc.
 - (vii) Loss of goods by fire/theft/spoilage.

4.7 Balancing the Accounts

Accounts in the ledger are periodically balanced, generally at the end of the accounting period, with the object of ascertaining the net position of each amount. Balancing of an account means that the two sides are totaled and the difference between them is shown on the side, which is shorter in order to make their totals equal. The words 'balance c/d' are written against the amount of the difference between the two sides. The amount of balance is brought (b/d) down in the next accounting period indicating that it is a continuing account, till finally settled or closed.

In case the debit side exceeds the credit side, the difference is written on the credit side, if the credit side exceeds the debit side, the difference between the two appears on the debit side and is called debit and credit balance respectively. The

accounts of expenses losses and gains/revenues are not balanced but are closed by transferring to trading and profit and loss account. The balancing of the an account is illustrated below with the help of an example explaining the complete process of recording the transactions, posting to ledger and balancing there of.
